CREATING A CULTURE OF DIGNITY

PRINCIPLES TO GUIDE US

Everyone deserves to be treated with dignity

Activating curiosity, especially when we're uncomfortable, is the key to learning

No one knows everything; together we know a lot

Be easy on people, but hard on ideas.

Conflict is inevitable and collaboration is essential to resolution

Listening is being prepared to be changed by what you hear

Asking for help is a skill not a weakness

CREATING A CULTURE OF DIGNITY

HAPPINESS

Meaning beyond oneself

Hope of success

Social connection

Satisfying work

A place to process and find peace

WHAT MAKES
YOU HAPPY?

CREATING A CULTURE OF DIGNITY

SIGNS THINGS ARE GOING OFF THE RAILS

The conversation is going in circles

People are repeating themselves

Either one of you feels judged or mocked

People are only listening to catch “mistakes”

You feel you have “won” the argument

CREATING A CULTURE OF DIGNITY

SIGNS THINGS ARE ON TRACK

Both “sides” can...

Feel like you’re getting to know the other person better

Share their feelings as well as their beliefs

Ask curious questions and listen to each other’s answers

Learn something from each other

Disagree, even intensely, but still feel that the other person acknowledges their dignity

CREATING A CULTURE OF DIGNITY

GIVE EVERYONE A LITTLE GRACE

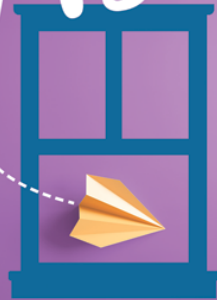

Help me understand...

This is clearly very important to you and I would like to understand why. Will you explain it to me?

CREATING A CULTURE OF DIGNITY
